

PROGRAMME

41ST Gastroenterology Session “EXTEND BOUNDARIES”

5-6th MARCH 2015

5th of March 2015	
Big Hall	
9.00 – 9.30 Opening ceremony.	
9.30 -10.30 European experts talks. Pancreatic club.	
<ol style="list-style-type: none"> 1. Rolf Graf (Zurich, Switzerland) Trends in pancreatic research 2. Alexei Tepikin (Liverpool, UK) Cell signaling, bioenergetics and cell damage – initiating events of acute pancreatitis. 	
10.30-12.00 Symposium:	
“Diagnostic criterion of chronic pancreatitis today”	
Moderators: Maev I., Grinevich V., Bordin D., Tsvirkun V.	
<ol style="list-style-type: none"> 1. Peter Hegyi (Hungary) Hungarian Guidelines of diagnostic and treatment of chronic pancreatitis 2. Grinevich V. (Saint-Petersburg, Russia) National recommendations in diagnostics and treatment of chronic pancreatitis. 3. Osipenko M. (Novosibirsk, Russia) Evidence base of medication usage in chronic pancreatitis treatment. 4. Maev I., Kucheryaviy Y. (Moscow, Russia) Chronic pancreatitis and IgG4-associate diseases. 	
12.10-13.40. Symposium: “Early diagnosis and treatment of pancreas cancer”.	
<ol style="list-style-type: none"> 1. Vinokurova L., Shulyatev I., Agafonov M. (Moscow, Russia) Pancreas cancer risk factors. 2. Dubtsova E. (Moscow, Russia) Clinical stigmas of pancreas tumors. 3. Paklina O., Rotin L. (Moscow, Russia) Morphological aspects of pancreas cancer diagnosis. 4. Byakhov M. (Moscow, Russia) Chemotherapy of pancreas cancer. 5. Izrailov R. (Moscow, Russia) Surgery treatment opportunities of pancreas cancer treatment. 	
13.50-15.20 Satellite Symposium. General sponsor. Abbvie	
New “model” of antiviral chronic Hepatitis C therapy.	
Moderators: Bakulin I., Chulanov V.	
<ol style="list-style-type: none"> 1. Chulanov V. (Moscow, Russia) Чуланов В.П. Assessment of current diagnosis and treatment of CHC in Russia. 2. Batskikh S. (Moscow, Russia) Non-interferon chronic hepatitis C treatment. 2015. 3. Bakulin I. (Moscow, Russia) 3D-therapy scheme treatment – practical use. 	
15.30-16.30 Satellite symposium. Takeda.	
«GERB therapy. Doctor’s and patient’s points of view.	

1. David Peura (USA) Requirements, problems and new possibilities IPP in GERB treatment.
2. Bordin D. A patient like a chain of treatment process. What a doctor should take into consideration?

16.40-18.00 Symposium. "Laparoscopic surgery treatment of pancreas".

Moderators: Danilov M., Shabunin A., Grinevich V., Khatkov I.

1. Cuschieri A. (Ireland) Miniinvasive surgery of pancreas. Future.
2. Khatkov I., Izrailov R., Tyutyunnik P. Laparoscopic proximal pancreas resection. Technical issues and results.
3. Kriger A. Robotic pancreas surgery: will the future become the present?
4. Khatkov I., Izrailov R., Khisamov A. Laparoscopic PDR with vessels resection.
5. Izrailov R., Andrianov A. Laparoscopic drainage and resection surgery of chronic pancreatitis.
6. Egorov V. Total duodenopancreatomy: 45 cases.
7. Khatkov I., Khisamov A. Post-operative care of the patients after laparoscopic pancreas resection.

Discussion

5th March 2015

Small hall

9.30-10.40 Symposium: “Activity and remission criteria of IBD”.

Moderators: Parfenov A., Scherbakov P., Khomeriki S.

1. Parfenov A. Activity index and clinical, endoscopic and deep IBD remission. (10 min).
2. Scherbakov P. Current assessments scales of endoscopic activity in IBD. (10 min).
3. Khomeriki S. Histopathological IBD characteristics in regression and remission. (10 min).
4. Trubitsina I., Ruchkina I. Cytokines – inflammatory markers for the patients with ulcerative colitis and Crohn’s disease. (8 min).
5. Boldireva O., Knyazev O., Parfenov A. Adhesion molecule – new serological markers in IBD (8 min).
6. Orlova N. MRI, MSCT and traditional radiological method in ulcerative colitis and Crohn’s disease. (8 min).
7. Bondarenko E., Samsonova N. Colon ultrasonography – perspective method of IBD diagnosis in ambulatory care. (8 min).

Discussion.

10.50-11.50 Satellite symposium. General sponsor Abbvie.

12.00-13.20 Symposium: “IBD biological therapy in Future”.

Moderators: Belousova E., Maev I., Parfenov A., Khalif I.

1. Maev I. IBD biological therapy perspectives. (15 min).
2. Belousova E., Morozova N., Velikanov E., Bogomazov Y. Is it possible to cancel biological therapy. (15 min).
3. Khalif I. Current approaches for anti-cytokine IBD therapy. (15 min).
4. Knyazev O. Cell IBD therapy. Clinical case. (15 min).
5. Lukina G. Alpha-FNO antagonists safety. (15 min).

Discussion.

13.30-14.50 Symposium: “Torpedoes” on IBD therapy way.

Moderators: Belousova E., Parfenov A., Khalif I.

1. Knyazev O. Opportunistic infections – real threat for IBD long-term remission. (20 min).
2. Belousova E., Volchkova E., Makarchuk P., Rusanova E., Velikanov E., Kudryavtseva E. The most common opportunistic infections with IBD patients in Moscow region. (20 min).
3. Borisov S. Latent pulmonary tuberculosis diagnostics and disease prevention. (15 min).
4. Ruchkina I., Fadeeva N. Infectious complications among IBD patients with biological therapy. BD Department of MCSC, our experience. (20 min).

Discussion.

15.00-16.20. Symposium: “Maybe it’s time to extend indications for surgical IBD treatment”.

Moderators: Mikhailyants G., Parfenov A., Khalif I.

1. Khalif I. Indications for surgical IBD treatment. (15 min)
2. Mikhailyants G. Surgical treatment of Crohn’s disease complications. (15 min)
3. Atroschenko A. Robotic colorectal surgery. (10 min)
4. Pozdnyakov S. Fast Track in coloproctology (10 min)
5. Golovenko A., Khalif I., Golovenko O. Головенко А.О., Халиф И.Л., Головенко О.В. Long-term results of glucocorticosteroid therapy among the patients with bad ulcerative colitis attack. (10 min)
6. Knyazev O., Parfenov A. Clinical case demonstration. (10 min)

Discussion.

16.30 – 17.30 Satellite symposium Pfizer: «Intestinal dysbacteriosis: extending the boundaries”.

Moderators: Parfenov A., Rybalchenko O., Ruchkina I.

1. Parfenov A. Gastrointestinal microflora and patient's health. (20 min)
2. Rybalchenko O. (Saint-Petersburg, Russia) Bacterial biofilms of GI tract. (20 min)
3. Ruchkina I. Probiotics role in post-infectious IBS therapy. (20 min)

17.30-18.00 Symposium: "Intestinal functional pathology. Today and tomorrow".

Moderators: Parfenov A., Chernin V., Tsukanov V.

1. Chernin V. (Tver, Russia) Symbiotic digestion. (15 min)
2. Tsukanov V. (Krasnoyarsk, Russia) Current SRK treatment. (15 min)

5th March 2015

Glass Hall

9.30-11.15 Symposium: “Multidisciplinary approach in hepatic diseases treatment”.

Moderators: Bakulin I., Vinnitskaya E.

1. Ogurtsov P. Alcoholic liver disease: problems of diagnostics and treatment.
2. Plyusnin S. ALD: primary and secondary prevention.
3. Zubkin M., Chervinko V., Selkova E. HCV-infection and cryoglobulinemic vasculitis.
4. Stuklov N. Chronic hepato diseases anemia.
5. Moroz E., Rotin D. Autoimmune hepatitis. Intersection syndrome. Is biopsy required?
6. Byakhov M. Drug-induced liver injury during chemotherapy of malicious tumors. Solutions.

Discussion.

11.00-12.50 Symposium: “Hepatic cirrhosis complications – different kinds of specialists’ opinions”.

Moderators: Bakulin I., Vinnitskaya E.

1. Vinnitskaya E., Bakulin I. Hepatic cirrhosis infectious complications: diagnostics difficulties, therapeutic approaches.
2. Damulin I., Degterev D., Nikitina A. Brain damages among hypohepatia patients.
3. Nedoluzhko I. Shishin K. Current approaches in BPB esophagus bleeding preventions: international recommendations, routine clinical practice.
4. Alikhanov R., Efanov M., Tsvirkun V. Portosystemic shunting surgery. The role in relapsing esophago-gaster hemorrhage treatment among the patients with hepatic cirrhosis.
5. Voskanyan S. Hepatic transplantation: nowadays and future.

Discussion.

13.00-14.00. Satellite symposium. MSD

Moderator: Bakulin I.

1. Ogurtsov P. HCH 1 treatment with limited resources. (20 min)
2. Knyazev O. IBD current therapy. (20 min)
- 3.

14.10-15.10 Satellite symposium. Berlin-Chemi. “Pancreas functional insufficiency and the ways of correction”.

1. Dubtsova E. Reasons of pancreatic exocrine insufficiency.
2. Kazyulin A. Chronic pancreatitis trophological status.
3. Vinokurova L. Pancreatic diabetes.

15.20-16.20 Satellite symposium BMS “Chronic virus hepatitis B and C. «Хронические вирусные гепатиты В и С. Adequate therapy – the best prognosis for a patient”.

1. Bakulin I. Hepatic cirrhosis as a result of virus hepatitis B and C: Бакулин И.Г. Цирроз печени в исходе вирусных гепатитов В и С: Is cure possible?
2. Isakov V. New opportunities of direct antiviral CHC therapy.

16.30-18.00 Symposium: “Diagnostic difficulties in gastroenterologist practice”.

Moderators: Komissarenko I., Mikheeva O.

1. Komissarenko I., Efremov L. Fever of unknown etiology. Scheme of diagnostic search.
2. Mikheeva O. Anemia as a symptom of GI diseases.
3. Akopova A. “Gastroenterological” masks of lymphogranulomatosis.
4. Levchenko S. Hepatosplenomegaly as amyloid disease manifest.
5. Okhapkina T. Differential diagnosis of chest pain.

5th March 2015.

President Hall

09.30-11.00 Plenary meeting 1 Endoscopy and complications. Prevention and treatment. “Forewarned is forearmed”.

Moderators: Starkov Y., Tkachenko O., Shishin K.

1. Sergey Kantsevov (Baltimore, USA) GIT perforations during endoscopic procedures. When you needs a surgeon’s help.
2. Tkachenko O. (Saint-Petersburg, Russia) Safetu during mucosa and submucosa resection. How is it possible to avoid bleeding and perforation?
3. Sergey Kantsevov (Baltimore, USA) Endoscopic treatment of gastrointestinal fistula and anastomotic leaks.

11.15-12.40 Plenary meeting 2 Endoscopy and complications. Prevention and treatment. “Forewarned is forearmed”.

Moderators: Gojello E., Kuchin Y., Shishin K.

1. Oliver Pech (Regensburg, Germany) Early cancer esophagus adenocarcinoma. Endoscopic vs surgical treatment.
2. Raf Bisschops (Leven, Belgium) RFA or case follow-up patients with low grade Barretta’s dysplasia.
3. Godjello E. Perforation during esophageal balloon dilation and bougienage.
4. Tarasenko V., Kuchin Y. Esophagus perforation with fish bones. Diagnosis and treatment.

12.50-13.50 Satellite symposium AstraZeneca “Ulcerative gastroduodenal bleeding: multidisciplinary approach”.

Moderators: Khatkov I., MAev I.

1. Maev I. Ulcerative gastroduodenal bleeding. Medicated hemostasis.
2. Shishin K. Ulcerative gastroduodenal bleeding. Endoscopic hemostasis.
3. Subbotin V. Consistency treatment of nonvariceal bleeding of upper GIT.

14.00-15.30 Plenary meeting 3 Endoscopy and complications. Prevention and treatment. “Forewarned is forearmed”.

Moderators: Agapov M., Solonitsin E., Shishin K.

1. Nustroev V. Colon perforation during colonoscopy.
2. Agapov M. Perforations during endoscopic procedures. Treatment strategy.
3. Marinaova L. Complications during endoscopic trans papillary procedures. Prevention and treatment.
4. Solonitsin E. Panreatic stenting complications.
5. Nedoluzhko I. Precut papillotomy. For whom, when, how.
6. Rudeiko I. Infectious safety during endoscopic procedures.

16.00-18.00. Videosession “Endoscopy and complications».

Experts: Kantsevov S., Raf Bisschops, Oliver Pech, Anishenko V., Agapov M., Bystrovskayaa E., Veselov V., Gojello E., Korolev M., Korolev V., Kuchin Y., Marinaova L., Myaukina L., Nedoluzhko I., Neustroev V., Solonitsin E., Sokolov V., Starkov Y., Tarasenko V., Tkachenko O., Ulyanov D., Fedorov A., Fedorov E., Filin A., Khrustaleva D., Shapovalyants S., Shishin K., Scherbakov P.

6th March 2015

Big Hall

8.30-9.00 Talk with the professor. Khatkov I.

9.00-10.30 Symposium: “Miniinvasive gastric surgery”.

Moderators: Lutsevich O., Sazhin A., Khatkov I.

1. Lyadov V. “Laparoscopic gastric surgery today”.
2. Khatkov I., Vasnev O., Izrailov R., Pomortsev B. Lymphodissection in gastric cancer surgery.
3. Karachun A. Short-term results after laparoscopic gastrectomy.
4. Izrailov R., Vasnev O., Pomortsev B. Laparoscopic gastric resection among patients with cardioesophageal cancer.
5. Rotin D. Clinical morphology of gastric cancer today.

Discussion.

10.40-12.20 Round table. “Strategy of prevention and early diagnosis of gastric cancer”.

Moderators: Bordin D., Marcis Leja, Byakhov M.

1. Byakhov M. Gastric cancer in Russia. (7 min)
2. Khomeriki S. *Helicobacter pylori* removable risk factor of gastric cancer. (7 min)
3. Kononov A. (Omsk, Russia) Prognostic value of ILGA system. (7 min)
4. Bordin D. Eradication of *H. pylori* and gastric cancer: where is point of no return? (7 min)
5. Marcis Leja (Lithuania) Gastric cancer screening – world overview. (25 min)
6. Kurilovich S. (Novosibirsk, Russia) The age of the first screening: epidemiological studies. (7 min)
7. Tsukanov V. (Krasnoyarsk, Russia) Gastric cancer screening in Krasnoyarsk. (7 min)
8. Abdulganieva D., Abdulkhakov R., Abdulkhakova S., Galeeva Z., Ivanov A., Muraviev V., Saifutdinova R. Atrophic gastritis screening in Tatarstan. The project “Protect your stomach from cancer”. (7 min)

Discussion.

12.30-14.00. Satellite symposium Jonson&Jonson “Practical models of triple therapy of CHC: from difficult to simple”.

Moderator: Bakulin I.

1. Zhdanov K. (Saint-Petersburg, Russia) Modern approaches to CHC treatment: what is waiting like?
2. Isakov B. Usage of protease inhibitors among difficult patients with CHC: what level reached by the second wave?
3. Bakulin I. Practical aspects of triple therapy usage among CHC patients: results.

Discussion.

14.10-15.50. Satellite symposium. Abbott “Difficult GI patient. Is he always difficult?” (clinical cases)

Moderators: Bakulin I., Bordin D.

1. Bakulin I. Diagnostics and treatment of alcoholic liver disease.
2. Bordin D. Difficulties in GERB diagnostics and treatment.

16.00-17.30 Symposium: “Miniinvasive esophagus surgical technologies”.

Moderators: Chernousov A., Levchenko E., Domrachev S.

1. Cuschieri A. (Dundee, Ireland) Robotic and thoracolaparoscopic esophagus surgery. World overview.
2. Chernousov A. Surgical treatment of benign esophageal strictures.
3. Levchenko E. Thoracolaparoscopic gastric cancer surgery.
4. Ruchkin D., Ganjello E. The role of stenting in esophagus surgery.
5. Izrailov R., Domrachev S., Vasnev O., Koshkin M. Thoracolaparoscopic surgery of benign esophagus diseases.

Discussion.

17.30. The closing of the Session.

6th March 2015

Small Hall

8.30-9.00 The talk with a professor. Parfenov A

9.00-10.30. Symposium: “Coeliacia. The future”.

Moderators: Krums L., Parfenov A., Roslavitseva E., Sabelnikova E.

1. Bykova S. Glutensensitive diseases – common and differential diagnostics.
2. Gudkova R. Comparative evaluation of serum diagnostics methods of coeliacia.
3. Sabelnikova E. New in diagnostics and treatment of coeliacia torpid forms.
4. Khomeriki S. Morphological diagnostics of coeliacia.
5. Roslavitseva E. Current methods of treatment child’s coeliacia.
6. Akhmadulina O., Sabelnikova E., Belostotskiy N. Comparative characteristics of scybalous small bowel mucosa activity among the patients with coeliacia and IBS.

10.40-12.10. Symposium: “Nosological diagnostics algorithms of enteropathy”.

Moderators: Krums L., Parfenov A., Scherbakov P.

1. Parfenov A. Nosological diagnostics of enteropathy.
2. Akopova A., Scherbakov P. The role of capsule videendoscopy of small bowel in enteropathy diagnostics.
3. Indeikina L. Bile acid diarrhea: from syndrome to Nosological diagnosis.
4. Akhmadulina O. Enteropathy. (Clinical case)
5. Bodunova N. Vitamin metabolic imbalance among baritric patients.
6. Abdulova E. Gluten enteropathy may be the reason of osteopenia

12.20-13.50. Symposium: “Laparoscopic surgery procedures among the patients with CVD: pros and cons from anesthesiologist point of view”.

Moderator: Epshtane S.

1. Babayants A. Pros 30 min
2. Subbotin V. Cons 30 min.

Discussion 30 min

14.00-14.30 – Professor’s talk:

Mkrtumyan A. What is it with you, beta-cell?

14.30 -15.30 Satellite symposium Такеда.

1. Mkrtumyan A. Inhibitors DPP-4 in diabetes mellitus type II treatment.
2. The role of calcium and D-vitamin in prevention and treatment of osteopenic syndrome.

15.40-17.30 Symposium: “Bariatric surgery – effective strategy of morbid obesity treatment and complication preventions”.

Moderators: Yashkov Y., Mkrtumyam A., Parfenov A.

1. Mkrtumyan A. Effective weight drop – success prevention of diabetes mellitus and CVD.
2. Yashkov Y. Metabolic surgery of the patients with diabetes mellitus type II: evolution and current situation.
3. Khatkov I., Askekhanov R. Metabolic surgery: yesterday, today, tomorrow.
4. Zvenigorodskaya L. Nonalcoholic fatty liver disease: diagnostic criteria and current approaches to prevention and treatment.
5. Biryukova E. Fat and carbohydrate metabolic imbalance in postprandial period among young men with obesity.
6. Subbotin V. Anesthesiology in bariatric surgery: what risks are.
7. Bodunova N., Drozdov V., Parfenov A. Influence of bariatric surgery procedures on vitamin metabolism of the patients with diabetes mellitus.
8. Firsova L. Patients before and after bariatric surgery procedures: compliance.

9. Degtyarev D. Neurological complications in bariatric surgery.
10. Feydorov I. Economic efficiency of bariatric surgery.

6th March 2015

Glass Hall

8.30-9.00 Talk with a professor. Bakulin I.

9.00 – 10.00 Round table “When and how to treat virus hepatitis?”

Moderators: Bakulin I., Chulanov V.

10.10-11.40. Symposium: “Functional biliary tract disease: unknown about known”.

1. Loranskaya I. Biliary disfunctions: current view on pathogenesis. (15 min)
2. Silvestrova S. Biochemical bile values of biliary dysfunctions. (15 min)
3. Orlova O. Functional characteristics of biliary system with hyperplastic cholecystosis. (15 min)
4. Khomeriki S. Biliary papillomatosis. (15 min)
5. Mechetina T. Biliary dysfunctions with different GIT diseases. (15 min)
6. Selezneva E. Correction of biliary dysfunctions as prevention of cholelithiasis.

11.50 – 13.20. Symposium: “Current approach to functional GI diseases”.

Moderators: Firsova L., Simanenkov V.

1. Simanenkov V. (Saint-Petersburg, Russia) Pathogenic mechanisms of functional GI diseases.
2. Pichugina I. Esophagospasm. Differential diagnostics.
3. Aldyunina I., Tunik N. “Lump in throat feeling” as a clinical symptom.
4. Chernus N. IBS: long-term monitoring.
5. Plotnikova E. (Kemerovo, Russia) ODDI sphincter dysfunction.
6. Firsova L. Phsycopharmakotherapy in gastroenterology: pros and cons.

13.30-14.30. Satellite symposium. UCB Pharma

1. Knyazev O. Current conception of Crohn’s disease treatment.
2. Ruchkina I. Simsia usage. Clinical case.

14.40-15.50 Symposium: Gematology in gastroenterology.

1. Pivnik A. Hypersplenism. Current situation.
2. Gorodetskiy V. Surgical procedures of oncohematological patients.
3. Zvonkov E. Lymphomas of GIT: chemotherapy and surgery.
4. Stuklov N. Anemias among the patients with liver diseases.

16.00-17.30. Symposium. “Science of nutrition”.

1. Kostyuchenko L. News of Russian science of nutrition.
2. Kazyulin A. Usage of vitamins for preventional and clinical medicine.
3. Achkasov E. Pathofisiological characteristics of nutrition pancreatitis support.
4. Shenderov B. Microbiological picture of bowel in critical conditions.
5. Leyderman I. Nutrition support of acute neurology and neurosurgery.
6. Shestopalov A. Parenteral and enteral support in intensive therapy.
7. Subbotin V. Intensive therapy and nutrition support of the patients on artificial lung ventilation after laparoscopic and robotic surgery.
8. Sergeev V. Nutrition support of acute gastritis.
9. Lysikov Y. Lipids and their role in nutrition support.
10. Lyashenko Y. History of enteral support in Russia.
11. Smirnova O. Synergism of nutrition support.
12. Kuzmina T. Functional bowel resection as an indication for nutrition rehabilitation with short bowel syndrome.

6th March 2015

President Hall.

8.30-9.00 Talk with a professor. Kantsevoy S.

09.00 -09.30 Symposium "Treatment of the patients with esophagus and stomach diseases".

1. Bordin D., Yanova O. Proton pump inhibitors and alginates in the first days of GERB treatment: advantages of mutual usage. (with Rekitt Benkizer support).
2. Yanova O., Bordin D. Proton pump inhibitors as a basis of GERB treatment.

9.40 – 11.55 Plenary meeting "Thin needle puncture under EUS".

Диалог с патологом» Concordia victoriam gignit (согласие порождает победу)

Модераторы: Быстровская Е.В., Солоницын Е.Г., Королев В.Н.

1. Solonitsyn Evgeniy et al: EUS FNA of solid pancreatic lesions: key aspects of multidisciplinary interaction
2. Neustroev Vladimir et al: Combination of endoscopic methods in morphological assessment of local pancreatic lesions
3. Burdukov Mikhail et al: CT, EUS and morphological criteria of adrenal gland pathology in case of its enlargement
4. Korolev Vladimir et al: Features of biopsy and cytomorphological evaluation in EBUS of lungs and mediastinum
5. Sivokozov Iliya et al: EUS in mediastinal pathology - correlation between cytology and histology

12.15-14.15 Round table «MultyFace Pancreatic Cysts in the Era of CT and EUS. A posse ad esse non valet cosequenti.

1. Adam Philips "The Role of EUS in assessment & management of Pancreatic Cystic Lesions"
2. Galkova Zalina et al: Cystic pancreatic lesions: we know that we know less
3. Silina Tatiana et al: CT and MRI in combination with EUS or without in diagnosis of pancreatic cystic lesions
4. Bystrovskaya Elena et al : Pancreatic cystic lesions: our defeat and victory
6. Solonitsyn Evgeniy et al: Combined diagnosis of pancreatic and abdominal cystic lesions (clinical cases)
7. Burdukov Mikhail et al: EUS prognosis of infectious complication risk in planned EUS- cystogastrostomy of pancreatic pseudocyst

14.25 – 15.55 Symposium: "Prevention and treatment of postresectional liver decompensation».

Moderators: Galperin E., Vishnevskiy V., Efanov M.

1. Kim P., Bondar L. Dynamic scintigraphy for risk evaluation of postresection liver decompensation.
2. Melekhina O., Kim P. First results analysis of portoembolisation in prevention of postresection liver decompensation.
3. Lyadov V. ALLPS . Pros and cons?
4. Voskanyan S. «Small for size syndrome» in case of living-related liver transplantation.
5. Alikhanov R., Efanov M. Liver resections. Surgical aspects of preventions of liver decompensation".

Discussion.

16.00-17.30 Symposium: "Theory-experiment –clinics".

1. Abdulatipova Z. Regeneration of gastric mucosa after MSK.
2. Belostotskiy N., Vinnitskaya E. Alcoholic liver damage in experiment.
3. Varvanina G., Tkachenko E. Influence of NPVP on the GI hormones system in experiment.

4. Dorofeev A., Gudkova R., Tkachenko E. Autoimmune reactions with chronic liver pathology.
5. Krasnov M.m Maltsev D. Influence of blood serum bioregulator on regenerative process of stomach ulcer.
6. Lychkova A., Puzikov A. Serotonin influence on development visceral system pathology.
7. Smirnova A. Acetylcholine and aspirin influence on SW620 cells in vitro.
8. Trubitsina I., Mikhalev I., Fedotova T., Smirnova A. Metabolic changes after drinking energizing soft drinks.
